WORK EXPERIENCE

GraceKennedy Financial Group   **Kingston, Jamaica**
Software Engineer   *Apr 2023 - Present*
- Collaborate cross-functionally with data scientists, business users, project managers, and engineers to deliver optimal solutions that meet user needs.
- Support the entire application lifecycle for mobile applications, including design, testing, release, and maintenance, ensuring high-quality deliverables.
- Develop software solutions by studying user requirements and analyzing system flows, leading to improved performance and user satisfaction.
- Contribute to the GKOne App by implementing critical bug fixes and enhancements for core features, significantly improving overall application performance and user satisfaction, while also enhancing the user experience by adding new functionalities and integrations to broaden the app's capabilities.

Speur Professional Services LLC   **Kingston, Jamaica**
Software Developer (Consultant at NCB)   *Sept 2022 - March 2023*
- Demonstrated leadership and mentorship skills by providing guidance and overseeing the work of interns, fostering their growth and professional development. Conducted thorough code reviews to ensure high code quality and adherence to best practices, contributing to a more robust and maintainable codebase.
- Ensured the seamless operation of enterprise applications by actively providing maintenance support, effectively resolving issues, and implementing timely updates to optimize performance and enhance user satisfaction.

Junior Developer (Intern)   *Jun 2021 - Sept 2022*
- Enhanced functionality and user experience of e-commerce web and mobile applications through successful implementation of innovative features, while also expanding API endpoints to bolster overall system capabilities.

Mona Geoinformatics Institute   **Kingston, Jamaica**
Software Developer (Intern)   *Feb 2021 - Apr 2021*
- Added to the successful implementation, testing, debugging, and deployment of high-quality software solutions, ensuring their seamless integration into the production environment.
- Compiled comprehensive documentation for various projects, enabling streamlined communication, knowledge sharing, and future reference.

EDUCATION

The University of the West Indies (UWI)   **Kingston, Jamaica**
BSc. Computer Science (First Class Honours) | GPA: 3.62   *July 2022*
